On Thursday, February 28th, Lotame hosted its second annual Lotame Ignite Asia Pacific Conference at the beautiful Pier One Sydney Harbour. Ignite brought together over 100 senior executives from Lotame’s publisher, agency and marketer client base in APAC for a half-day of agenda content centered around this year’s theme Unlocking the Power of Your Data. Ignite tackled topics like publisher consortiums, data personalisation, data quality and privacy, second-party data for ROI, market trends and innovations, and connected TV.

**NEW for Ignite APAC,** a list of insightful key takeaways were included at the end of every session, providing attendees with a roadmap to help steer strategy while unlocking the power of data within your organisation. For your convenience, we’ve compiled them in this summary report.

If you missed the chance to hear from Lotame clients and executives on key challenges and solutions facing the MarTech industry, **reach out** with any questions.

DELIVERING RELEVANCY, ENGAGEMENT AND ROI THROUGH SECOND-PARTY DATA

ANDREW REID,
General Manager Data Analytics & Insights
Ticketek (TEG)

IGNITE KEY TAKEAWAYS

- How would you rate the ‘fidelity’ of your customer data?
- What additional data would deliver information gain?
- Do you have a plan to activate your customer data?

“The timing and intent of Lotame Ignite Conference was uncanny. The application of DMP technology is now mainstream, and the need to enrich and activate customer data via this technology was a real consideration amongst many attendees. Everyone was focused on next steps, doing a deal or skilling up.”

NEW! Lotame Rule Builder was announced for DMP clients during Ignite Conference.
For the very first time, Lotame clients can start defining and writing their own data collection rules using keywords such as url, product pricing, product title, and article title!

- **Data Collection Control**: Define your own rules in a self-service interface to determine what data is collected from your inventory.
- **Granularity**: Capture meaningful data from granular, non-persistent data types, such as article titles, search terms and urls.
- **Flexibility & Accuracy**: Combine multiple data points from a single page, using boolean logic.
- **Categorization & Aggregation**: Write a single rule to capture multiple data points from multiple sources across your inventory.

IGNITE KEY TAKEAWAYS

- **Data Quality**: Revisit your 1st-party data approach with the Rule Builder!
- **Think Big (Data)**: Don’t let the terms “AI”, “Big Data” or “Machine Learning” scare you. We can help!
- **Explore**: There’s a growing ecosystem of differentiated 2nd-party data at your fingertips.
- **Create**: YOUR story with our audience dashboards.
- **Connect**: New opportunities in connected tv and your data strategy.
