### **MODELED DATA**

No

Vibrant Media Inc is a leader in contextual marketing, offering hyper-relevant advertising across a global network. We partner with advertisers and publishers to deliver highly viewable, brand safe advertising to the right audience at the right moment. Vibrant's user-initiated ad formats and unique content-driven targeting ensures you are connecting with the most valuable potential consumers in key markets.

## **KEY HIGHLIGHTS**

Vibrant takes pride in their unique ability to deliver relevant advertising experiences to users while they are actively reading and engaging with content. These experiences can be targeted based on users' interests, language, and location, while being driven by our real-time contextualization keyword technology. Vibrant's data is gathered from these interactions and interests via exclusive contextual relationships with publishers.
